

REFLEX

DESCALING ACID FOR MANUAL USE FOR FOOD PRODUCTION EQUIPMENT

APPLICATIONS:

REFLEX is an acid cleaner to eliminate limestone .

REFLEX is used for cleaning manually
production equipment, removable pieces and tools.

This concentrated acid allows to eliminate limestone, milkstone,
beerstone at low cost and quickly .

For machines that work in hot water, limestone crusts are eliminated,
rotating and heating system are more efficient.

INSTRUCTIONS:

Use from 3 to 5% in cold or hot water and leave it work for 10 - 15 min.

Rinse with clean water and repeat if necessary.

Can be used on all metals

CHEMICAL - PHYSICAL DATA :

Status:	Liquid
pH.:	2 conc.
Foam:	Low
Colour:	Orange
Odour:	None

COMPONENTS:

Non-ionic surfactants,
phosphoric acid

CAUTION :

Wear suitable clothes and gloves, protect eyes and face.

Corrosive. Causes severe burns. In case of contact with eyes or face,
rinse immediately with plenty of water and seek medical advice.

Keep away from alkaline products and chlorinated products.
