

## DETEX

### DEGREASER CLEANER FOR MACHINERY

### CARS, BUSES AND TRUCKS

#### APPLICATIONS:

DETEX is an effective cleaner for all machineries.

Degreases all kind of surfaces.

Natural application and effective in the engineering industries,  
garages, workshops, deposits of means of wheels etc.

Its low alkalinity formulation does not attack soft metals  
such as: aluminium that is on bodywork and engines.

Does not attack plastic materials and leaves surfaces sparkling clean.

#### INSTRUCTIONS :

Use from 3% to 5 % in cold water.

Apply on surfaces and let it work for a few minutes.

May be applied with foam or spray. Let it work and brush to eliminate  
dirt. Hot water accelerates the elimination of grease.

Rinse with high pressure use the jet as if it was a brush

For ENGINE wash, use 10 % more. Spray on engine, let it work,  
rinse with high pressure.

#### CHEMICAL - PHYSICAL DATA :

Status:	Liquid
pH.:	12 conc .
Foam:	Medium
Colour:	None
Odour:	Pleasant

#### COMPONENTS :

non-ionic surfactants, sequestrants

Potassium hydroxide.

#### CAUTION :

Corrosive.

Wear clothes and gloves, protect eyes and face

In case of eye or skin contact wash immediately with plenty of water  
and seek medical advice.
