

TECHNICAL DATA SHEET

TEKNO

DEGREASING FOAMING DETERGENT FOR FOOD COMPANIES

APPLICATIONS:

TEKNO is a degreaser slightly alkaline, concentrated with a strong degreasing power.

Used to clean equipments and machines for food companies.

This product can be applied by foam generators, manually or by soaking.

This kind of formulation eliminates fats, proteins, organic materials and other remains easily and quickly at low costs.

Bad odours are eliminated and surfaces remain sparkling clean.

Its formulation allows quick reduction of foam.

Can be used on all kind of materials.

INSTRUCTIONS:

Use from 1 to 5% depends on quantity and type of dirt.

Apply with foam generators or sprayer and let it work for a few minutes.

If used manually, let it work for 10 minutes
so product can give best results.

It can be used on any washable surface, also manually with sprayer.

If so, dilute product. Usually from 1 to 3% .

COMPONENTS:

Non-ionic surfactants, sequestrants
organic glycols

CHEMICAL - PHYSICAL DATA :

Status: Liquid

Foam: High

pH.: 9 conc .

Colour: Straw

Odour: None
