

TETRA CLOR

FOAMING DEGREASER

SANITIZER WITH ACTIVE CHLORINE

APPLICATIONS:

TETRA CLOR is a strong and fast degreaser

Apply by foam to clean food equipments.

It cleans, sanitizes, bleaches surfaces .

Eliminates molds that come from moist areas.

Leaves surfaces sparkling clean given by a controlled drying
that avoid spots (residual limestone)

Strong chlorine content guarantees a high sanitization of surfaces.

For bleaching surfaces, it is possible to add to the product any amount
sodium hypochlorite.
