

## ALKA BLU

### ALKALINE CHLORINATED LIQUID CLEANER FOR MECHANICAL MILKING

#### APPLICATIONS:

ALKA BLU is a high concentrated cleaner for milking machine.  
It is effective on all kinds of dirt coming from the milk.  
It is very active on fats and on proteins independently on the water hardness.  
Its high chlorine content allows an effective and safe sanitizing.

#### INSTRUCTIONS:

The concentration of use depends on the type of milking machine and water hardness. We usually use 0,5 % in hot water.  
Recycle solution 10 - 15 min. in hot water.  
Do a test, increase concentration depending on water hardness.  
When concentration is done, use a measure so to use always the same amount  
**USE THIS PRODUCT AFTER EACH MILK.**  
*AVVERTENZE : Best results with hot water.*  
**FIRST RINSE IS VERY IMPORTANT. At the end, water must be clear.**

#### FREQUENZA D'USO

	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
MORNING	ALKA	ALKA	ALKA	ALKA	ALKA	ALKA	ALKA
EVENING	ALKA	ACID	ALKA	ACID	ALKA	ACID	ALKA

#### CHEMICAL - PHYSICAL DATA

Status:	Liquid	Foam:	None
pH.:	12 to 1 %	Colour:	Straw
		Odour:	Chlorine

#### COMPONENTS:
